EDUCATION

Indira Gandhi Delhi Technical University for Women

2022–2026

B.Tech in Computer Science and Engineering

New Delhi, India

SUMMARY

Computer Science Engineering graduate focused on Python and full-stack development, with hands-on experience building data-processing applications, user-facing interfaces, and automation workflows.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C, C++

Frontend: React.js, HTML, CSS **Backend:** Node.js, Express.js, REST APIs

Data & Databases: Pandas, NumPy, scikit-learn, Streamlit, MongoDB, MySQL

Developer Tools: Git, GitHub, Postman, Linux, Google Colab

Core: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems

EXPERIENCE

Machine Learning Intern, COE-AI, Anveshan Foundation | GitHub

Jun 2023–Jul 2023

- Built an end-to-end telecom churn prediction workflow on 7,043 customer records, covering preprocessing, feature engineering, model training, and evaluation.
- Compared multiple classification algorithms and achieved approximately 81% accuracy with the best-performing model.
- Translated model results into customer insights that could support targeted retention strategies.

PROJECTS

Resume Analyzer and Job Match System | Python, NLP, spaCy, TF-IDF, Streamlit

Nov 2025

- Developed an NLP application that compares resumes with job descriptions and returns actionable feedback.
- Calculated resume-job match scores using spaCy and TF-IDF; extracted skills and identified missing skills.
- Recommended suitable roles and improvement areas and generated downloadable PDF reports with scores and visualizations.
- GitHub | Live demo

Sales Analytics and Forecasting Dashboard | Python, Pandas, Streamlit, Prophet

Dec 2025

- Built an automated ETL pipeline to clean and preprocess sales data for repeatable analysis.
- Created interactive dashboards covering 10,000+ records to surface revenue trends, product categories, and growth metrics.
- Implemented time-series forecasting with Prophet to project sales for the next 365 days.
- GitHub | Live demo

PUBLICATION & LEADERSHIP

Publication: “AI-Driven Synthetic Data for Better Lung Cancer Prediction with TabDDPM and CTGAN,” ICAAI, 2025.

Leadership: Research Team, ARC Society (2023–2026) | PR Team, Rotaract Club (2024–2025)

CERTIFICATION

Web Development, Internshala

Jun 2024
